

## Healthcare

March 2014 – November 2014

# Get Movin'!

## Take the 125 Miles for Health Challenge!

This year, **South Dakota is celebrating its 125th year of statehood!**  
We are challenging you to **walk** 125 miles between March and November.

When you decide to be more physically active, you lower your risk of premature death, heart disease, stroke, high blood pressure, certain cancers, depression, diabetes, and falls. *You can start with something as easy as walking!*

### Why walking?

- Walking is one of the most popular, easiest forms of physical activity
- No special skill or expensive equipment is needed
- You can walk indoors or outdoors anytime
- Multiple purposes (transportation, exercise, recreation)
- Walking can be easily incorporated into a busy lifestyle
- Walking promotion is a practical public health strategy

### A little goes a long way...

**Adults** need 150 minutes (**just 2.5 hours**) of moderate activity each week, or 75 minutes (**just over 1 hour**) of vigorous activity each week.

**Kids** need 60 minutes of moderate to vigorous activity each day, including muscle and bone strengthening activities at least 3 days a week.

**Older Adults** who cannot do 150 minutes of aerobic activity, should be as active as their conditions and abilities allow.

### Moderate physical activity

I can talk while I do these activities, but not sing. Like gardening, walking briskly, water aerobics, softball, and baseball.

### Vigorous physical activity

I can only speak a few words without stopping to catch my breath. Like race walking, running, cycling, soccer, jumping rope, and aerobic dancing.

	Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Week Total
<b>March</b>								
3/2 – 3/8								
3/9 – 3/15								
3/16 – 3/22								
3/23 – 3/29								
3/30 – 4/5								
<b>April</b>								
4/6 – 4/12								
4/13 – 4/19								
4/20 – 4/26								
4/27 – 5/3								
<b>May</b>								
5/4 – 5/10								
5/11 – 5/17								
5/18 – 5/24								
5/25 – 5/31								
<b>June</b>								
6/1 – 6/7								
6/8 – 6/14								
6/15 – 6/21								
6/22 – 6/28								
6/29 – 7/5								
<b>July</b>								
7/6 – 7/12								
7/13 – 7/19								
7/20 – 7/26								
7/27 – 8/2								
<b>August</b>								
8/3 – 8/9								
8/10 – 8/16								
8/17 – 8/23								
8/24 – 8/30								
8/31 – 9/6								
<b>September</b>								
9/7 – 9/13								
9/14 – 9/20								
9/21 – 9/27								
9/28 – 10/4								
<b>October</b>								
10/5 – 10/11								
10/12 – 10/18								
10/19 – 10/25								
10/26 – 11/1								

## What counts as 1 mile?

Besides walking 1 mile, other activities can count towards your **125 mile goal**.

Any other form of locomotor activity counts; i.e. running, swimming, elliptical, biking, arm circles, etc. Remember – approximately 2,000 steps is equal to 1 mile.

On average, an individual will **burn approximately 100 calories per 1 mile walked**. However, gender, height, speed, fitness level, and weight all influence total caloric expenditure per mile.

## Ways you can participate in your Healthcare Organization

- Promote exercise prescription pads offered by the Department of Health.  
[www.healthysd.gov/HealthProfs/default.aspx](http://www.healthysd.gov/HealthProfs/default.aspx)
- Educate patients on the importance of physical activity, including lower risk of heart disease and type II diabetes, weight management, improved strength and flexibility, and improved quality of life.  
[www.health.gov/paguidelines/guidelines/default.aspx](http://www.health.gov/paguidelines/guidelines/default.aspx)
- Encourage patients to slowly develop walking as a daily routine. Suggest walking for 10 minutes each day, walking to a local attraction, parking further away from their destination, or actively walking to work.

## How to register

- For all the details **go to HealthySD.gov**. Pre-registration is not required.
- **Distribute the daily log** (left) to individuals within your organization or community. Ask them to record total minutes or miles walked each week from March through October 2014.
- **Report your success in November**. Download the registration form from HealthySD.gov. Describe how you implemented the 125 Miles for Health Challenge to receive a certificate of participation.

## Apps to help track activity

- MapMyWalk – [www.mapmywalk.com](http://www.mapmywalk.com)
- Everybody walk! – [www.everybodywalk.org/app.html](http://www.everybodywalk.org/app.html)
- Walking Paths, American Heart Association – [www.startwalkingnow.org/WalkingPathApp.jsp](http://www.startwalkingnow.org/WalkingPathApp.jsp)
